

Sit Strong Systems

Capabilities Statement

Sit Strong Systems, LLC, is a service-disabled veteran-owned small business that provides convalescent chairs and recliners to assist in patient rehabilitation and fitness. Our patented, innovative exercise chair provides easily accessible physical therapy for patients at all levels of fitness. We also offer standard recliners for hospital patient rooms.

Sit Strong products are utilized by commercial and government healthcare facilities. In addition, our products are also ideal for patient rehabilitation therapy in the home. With ever-increasing costs of hospital rehabilitation programs, a quality in-home alternative allows for earlier patient release and reduced medical costs.
